Re: Volume Shoe
Granada Hills, California

Dear Sobhi:

I was very pleased to hear that you are building the above referenced project. I hope you will find the drawings to be clear and that you will not have any significant problems. Please find enclosed a sepia of the MP-1 sheet. I would appreciate it if you would take a few minutes to review the enclosed copy and let me know if any of these revisions will affect your contract as far as extras are concerned.

I believe you will find these revisions to be minor and more or less clarifications. The Building Department in Van Nuys required these notes in order to secure the Building Permit. Wayne has told me that he has received approvals for all of these items. Good luck on the project, and please do not hesitate to contact me if you should have any questions during construction.

Sincerely,

Emmett Sacrey
Project Manager
