RE: PELICAN CONSTRUCTION

As per our conversation of Thursday, March 17th, this is to confirm the following.

Pelican Construction has been building restaurants and other commercial buildings for the last eight years in the Los Angeles area.

Some of their accounts are Wendy's, Conroy's Flower Shops and Shoe Stop stores. Their work is done in a quality mannner and timely. Additionaly, they have a reputation for being very competitive on costs.

Please accept this memo as my endorsement to put Pelican on the Approved Contractors List.
