December 20, 1977

To Whom it may Concern:

Mr. L. Tadros has just finished for us the transformation of a three-floor building, at 2130 St. Mathieu Street, from an old residential house into a commercial property. That major modification costed \$94,000.00.

Mr. Tadros also built for us in October 1973 a commercial building at 2480 Chambly Road in Longueuil.

Both projects were completed with success thanks to the construction know-how and initiative of Mr. Tadros.

It would not be just to end this letter without specific praise for Mr. L. Tadros personally, not only for his professional knowledge, which has been proven to me, but also for his understanding and dignity in dealing with people and his ability to settle the most complicated matters in a satisfactory way.

I recommend him without hesitation.

S. H. Lindy
