To whom it may concern:

Re: Mr Sobhi Tadros, and companies

The following testimonial is intended to declare our satisfaction with the beneficial results achieved by Mr Sobhi Tadros in his past involvement in our complex construction project, of 47 different residential condominiums within and around a heritage mansion downtown, He performed admirably as our 'Owners' Representative', skillfully handling the intricacies of combining non-combustible new concrete construction, dovetailed with the total renovation of a combustible existing wood building in one ensemble.

His technical knowledge and business acumen, further leveraged by his devotion and commitment, enabled successful completion to a detail-intensive site and project delivery.

Subsequently, I had the pleasure of enthusiastically recommending Mr Tadros to a developer-owner acquaintance; and was gratified with the exemplary results he subsequently achieved there, in building a high-rise hotel near the airport with remarkable efficiency in time, and budget.

We are currently collaborating on our next condominium/mixed-use urban development, where we are entrusting Sobhi Tadros and his team to build according to a very aggressive budget and efficient schedule. We are totally confident that Mr Tadros will ensure not only our entire satisfaction as developers, but the long term construction performance of 'his' building to benefit long term, our occupying purchaser-clients.

Good luck and success in all your endeavors with all your good clients.
